

Viktoriia Shtyreva

FULL STACK DEVELOPER

+358451630873

viktoriashtyreva@gmail.com

Helsinki, Finland

- Achieved certificate Azure Developer Associate by Microsoft
- Polyglot Technologist: C#, .NET, React, TypeScript, Node.js
- Opened for constantly innovating at the intersection of cloud development and AI-driven applications

SKILLS

FRONTEND

React (Redux, React.js, React Testing Library), TypeScript, Node.js, Next.js, Meteor.js, SASS, MUI, Tailwind CSS

BACKEND

C#, .NET, EF, ASP.NET Core, REST API

DATABASES

PostgreSQL, MongoDB, Azure Cosmos DB, MS SQL

TESTING

Jest, XUnit, Moq, Postman, Unit testing, Lighthouse, Swagger, Sentry

DEVOPS

Microsoft Azure, Git, Vercel, BitBucket, Docker, GitHub Actions

OTHER

Agile Methodologies, Project Management (Jira, Confluence), Code Reviews

LANGUAGES

Russian (Native)

English (Fluent)

Finnish (Intermediate)

ACCOMPLISHMENTS

Azure Developer Associate, Microsoft (August 2024)

React -The Complete Guide (incl. React Router & Redux), Udemy (April 2024)

Understanding TypeScript, Udemy (April 2024)

Suomen kieli ja viestintäosaaminen A2.2, Galimatias Concept Oy Ab (September 2023)

JavaScript for Professional Development of Web Interfaces, HTML Academy (April 2022)

EXPERIENCE

FULL STACK DEVELOPER

Integrify Oy | Helsinki, Finland | January 2024 - September 2024 (9 mos)

Technologies Combined: Microsoft Graph, Azure Functions, ASP.NET Core Identity, EntraID, Azure App Services, Azure Cosmos DB, Azure Service Bus, Azure Monitor, Azure Blob Storage, C#, .NET, REST API, TypeScript, React, Redux Toolkit, React Router, Material UI, PostgreSQL, Cloudinary, Stripe API, Vercel, CI/CD Pipeline

- Optimized user authentication by applying SOLID principles and integrating ASP.NET Core Identity, EntraID, and Microsoft Graph, reducing login times by 30% and enhancing security with two-factor authentication, leading to a 15% increase in user retention.
- Implemented the MVC design pattern and reduced server load by 20% by designing and optimizing database queries using Azure Cosmos DB and Entity Framework, which minimized system crashes during peak usage periods.
- Collaborated with cross-functional teams, ensuring timely feature delivery and reducing project delays by 10% using Agile methodologies.

FRONTEND DEVELOPER

Unfair Advantage Ltd Oy | Helsinki, Finland | January 2023 - December 2023 (1 yr)

Technologies Defined: React.js, React Router, Redux, Material UI, Meteor.js, Stripe API, MongoDB

- Resolved 30% of recurring bugs by debugging and refining code in key areas such as authentication, improving platform stability and increasing user satisfaction by 20%.
- Implemented Stripe API, enhancing payment functionalities and driving a 25% increase in transaction volume, contributing to 15% growth in client subscriptions.
- Pioneered the adoption of standardized code reviews, improving team productivity by 20% and reducing post-deployment issues by 15%.

RESEARCHER

BIOCAD | Saint Petersburg, Russia | September 2019 - June 2022 (2 yrs 11 mos)

Technologies Used: Project management tools (Jira, Confluence), Flow Cytometry, Agile Methodologies (Kanban, Scrum)

- Coordinated biotech research projects, improving project delivery speed by 15% through better team coordination and communication, reducing overall project costs by 10%.
- Mentored junior researchers, resulting in a 30% increase in research output and a 15% improvement in the quality of research papers.
- Introduced new analytical methods, boosting sample processing efficiency by 30%, enabling the team to meet tight deadlines and improve overall lab throughput.

EDUCATION

FULL STACK DEVELOPMENT PROGRAM

Integrify Academy | Helsinki, Finland | January 2024 - June 2024

BACHELOR'S DEGREE IN BIOLOGICAL SCIENCES

Kazan Federal University | Kazan, Russia | August 2014 - June 2018
